

PRAXIS I REGISTRATION PROCEDURE

- The process for taking the course is getting admitted to Ivy Tech (free of charge). Tell the Admissions staff that you are here "for courses only" as opposed to degree-seeking. That will waive your need to take placement tests and go through Student Support and Advising.
- You will receive acceptance to the college within the week. (You can either apply online at ivytech.edu or in person at the Admissions office, which is at the Coliseum campus.)
- Once you are admitted, contact Ms. Laurie Johnson (laujohns@ivytech.edu) to sign them up for the course, or you can go to the Registrar and tell officials there you want to enroll for EDUC 156 for summer or fall term.
- Once you are registered, you can take your registration form (from Ms. Johnson or from the Registrar) to the bookstore and purchase the book, which is \$20. The Praxis I test cost is *not* included in the cost of the course.
- There's a \$40 tech fee associated with the course, **so the total tuition fee for in-state students is \$135.**
