

INTRODUCTION TO THE ASSESSMENT PLAN

The BSW Program Assessment Plan is an outcome-based assessment used to measure student competency of learning outcomes. The assessment plan consists of nine competencies identified by the Council on Social Work Education in its 2015 Educational Policies and Accreditation Standards. Based on evaluation data, the program creates a Curriculum Improvement Plan for the next academic year. Hence, the program has a system for continuous improvement and sustainability. The assessment plan's results are listed below according to each competency. A copy of the detailed BSW Program Assessment and Curriculum Improvement Plan is available upon request.
