INITIAL-LICENSURE LEVEL AREAS FOR IMPROVEMENT AND STIPULATIONS

STANDARD R5: Quality Assurance System and Continuous Improvement

	Areas for Improvement	Rationale
1	The EPP provided limited evidence that its Quality Assurance System relied on representative or actionable measures. (component R5.2)	Although the EPP provided disaggregated data by demographic groups during the Site Review, the EPP was not regularly collecting or reviewing the data.

Additionally, one data point for the POLAN, specifically Row 9 Impact on P-12 Learning, had been entered incorrectly by EPP faculty for at least three data cycles, creating an unreliable data set.

AREA(S) FOR IMPROVEMENT OR WEAKNESS(ES) from previous legacy accreditor review (NCATE or TEAC)

Removed:

Area for Improvement or Weakness	Rationale
(1) [CAEP 1] Provider does not ensure candidates use research and evidence to develop an understanding of the teaching profession. [ITP]	(1) The Site Review Team is recommending this legacy AFI be removed because it is from a previous incarnation of the CAEP standards and is no longer applicable.
(2) [CAEP 4] The provider does not demonstrates, using measures that result in valid and reliable data, that program completers perceive their preparation as relevant to the responsibilities they confront on the job, and that the preparation was effective. [ITP]	(2) The Site Review Team is recommending this AFI be removed because it has been effectively remediated. (3) The Site Review Team is recommending that this AFI be removed and replaced by the AFI recommended in component R5.2. The EPP's Quality Assurance System did rely on measures that were valid and reliable, however, the quality of the data was an area for improvement.
(3) [CAEP 5] The EPP assurance system does not rely on measures that are valid and reliable. [ITP]

INFORMATION ABOUT ACCREDITATION STATUSES

Accreditation for seven (7) years is granted if the EPP meets all CAEP Standards and components, even if areas for improvement (AFIs) are identified in the final report of the Accreditation Council.

- **Areas for Improvement (AFIs)** indicate areas which must be improved by the time of the next accreditation visit. Progress reports on remediation of AFIs are submitted as part of the Annual Report. AFIs not remediated by a subsequent site review may become stipulations.

Accreditation with stipulations is granted for 2 years if an EPP meets all standards but receives a stipulation on a component under any standard. Failure to submit a response to the stipulation within a two (2)-year time frame results in revocation. Failure to correct the condition leading to the stipulation within the specified two (2)-year period results in revocation or probation.

- **Stipulations** describe serious deficiencies in meeting CAEP Standards and/or components and must be brought into compliance in order to continue accreditation. All stipulations and relevant evidence are reviewed by the Accreditation Council. Failure to correct the condition leading to the stipulation results in probation or revocation of accreditation.

Probationary Accreditation is granted for two (2) years when an EPP does not meet one (1) of the CAEP Standards. Failure to submit a response to the stipulation within a two (2)-year time frame results in revocation. Failure to correct the condition leading to the stipulation within the specified two (2)-year period results in revocation.

SCOPE OF ACCREDITATION

The scope of CAEP's work is the accreditation of educator preparation providers (EPPs) that offer bachelor's, master's, and/or doctoral degrees, post-baccalaureate or other programs leading to certification, licensure, or endorsement in the United States and/or internationally. (2018).

CAEP does not accredit specific degree programs, rather EPPs must include information, data, and other evidence on the following in their submission for CAEP's review:

All licensure areas that prepare candidates to work in preschool through grade 12 settings at the initial-licensure and advanced levels that lead to professional licensure, certification, or endorsement as defined by the state, country, or other governing authority under which the EPP operates and for which the state, country, or other governing authority has established program approval standards.

Depending on an EPP's submission, accreditation may be awarded at one or both of the following levels: Initial-Licensure level and/or Advanced Level.

1. **Initial-Licensure Level Accreditation** is provided at the baccalaureate or post-baccalaureate levels leading to initial-licensure, certification, or endorsement that are designed to develop P-12 teachers.
2. **Advanced Level Accreditation** is provided at the post-baccalaureate or graduate levels leading to licensure, certification, or endorsement. Advanced Level Programs are designed to develop P-12 teachers who have already completed an initial-licensure program, currently licensed administrators, or other certified (or similar state language) school professionals for employment in P-12 schools/districts. CAEP's Advanced Level accreditation does not include any advanced level program not specific to the preparation of teachers or other school professionals for P-12 schools/districts; any advanced level non-licensure programs, including those specific to content areas (e.g., M.A., M.S., Ph.D.); or Educational leadership programs not specific to the preparation of teachers or other school professionals for P-12 schools/districts.

Information on accreditation status, terms, and any conditions provided within this directory is specific to the accreditation level(s) described above. CAEP-accredited EPPs are required to distinguish accurately between programs that are accredited and those that are not.

The following programs are included in the current accreditation cycle:

Program Name	Licensure Level	Degree
Elementary Education	Initial-Licensure Level	Post Baccalaureate
Elementary Education	Initial-Licensure Level	Baccalaureate
Secondary Education	Initial-Licensure Level	Post Baccalaureate
