**RE: Program #0459**

**Previous Accreditation Status: 8 Years**

**Most Recent Site Visit: 10/2021**

Dear Dr. Richey:

After review of the requested interim report, the continuing accreditation status of the associate degree radiography program, which includes distance delivery and evening curricular track options, sponsored by the University of Saint Francis was considered at the February 11, 2026 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

**MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.**

The next site visit is tentatively scheduled for the Fourth Quarter of 2029.

The program is advised that while all required components are present, the overall assessment plan could be significantly strengthened to enhance its effectiveness and clarity. Accordingly, the JRCERT has determined that program officials would benefit from a JRCERT-sponsored Outcomes Assessment Workshop as identified in JRCERT Policy 11.500. Documentation of the program director's attendance at an Outcomes Assessment Workshop must be submitted no later than **February 11, 2027**. A complete listing of dates and locations for all JRCERT-sponsored seminars and workshops is available at [www.jrcert.org/events](http://www.jrcert.org/events).

The program is also advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits to accredited programs. The sponsoring institution would be responsible for the expenses of any onsite evaluation.

The Joint Review Committee on Education in Radiologic Technology Directors and staff congratulate you and the program faculty for maintaining the maximum award of accreditation from the JRCERT and wish you continued success in your efforts to provide a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

A handwritten signature in cursive script that reads "Kae B. Fleming".
